The image shows the front cover of an antique book. The cover is decorated with a traditional marbled paper pattern, featuring large, irregular, brownish-gold shapes with a textured, almost cellular appearance, set against a lighter, yellowish-gold background. Small, scattered red and dark brown specks are interspersed throughout the marbling. In the center of the cover, there is a rectangular, cream-colored paper label with a slightly decorative border. The word "Journal." is printed on this label in a black, elegant, cursive script. The book's spine, visible on the left, and the corners, visible on the right, are bound in a dark, possibly black, leather or cloth material. A faint, semi-transparent watermark reading "Rare Book Community Press Library" is visible across the lower portion of the marbled area.

Journal,

by Thomas Henry Knowles.

Commenced Oct. 11 1859.

Harvard College -

<sup>1359</sup>  
Oct. 12 Wednesday; Very pleasant. Have recited  
in Astronomy in German and in Chemistry.  
This evening went to Melissa and met H.S.  
& J.P. from N.H. Cannot write much as I  
am sitting in a room with both windows o-  
pen and only my night-clothes having go-  
t to bed and got up again to write in this  
book, not being willing to fail so soon.  
It is getting decidedly cool.

13 Thursday, Very pleasant. Have recited in  
Greek and in Latin. We had no themes this  
week on account of the approaching Exhibition  
occupying Mr. Ferris's time. Read an  
Address delivered by R. W. Emerson to the  
Graduating class of the Divinity School at Camb-  
ridge July 1838. It expressed more, early  
than anything I remember to have read, what  
seems to be the nature of Christ and of his  
religion. Have been reading also Charles  
Reade's "Love me Little, Love me Long".

Oct. 17 Monday: - Quite pleasant, with a slight sprinkling of rain this afternoon. Recited in Astronomy, German, Spanish and Chemistry. The catalogues came out to-day. Each student is provided with one gratis - Nothing worthy of notice.

Oct. 18 Tuesday. - Raining the most of the forenoon. Today is the annual exhibition of the Senior and Junior classes. The first twelve scholars from each class have parts. The speakers from our class are Pettee, Kistner, Pickering, Garrison, Dwyer, Bowditch, Mumford, Helen Cardon, Dabney and J. R. Stone. McDaniels was absent on account of sickness. There are rumors today of a slave insurrection at Harper's Ferry, Virginia. It is likely to be subdued.

Oct. 19 Wednesday: - Very pleasant but cold. Have recited in Astronomy, German, Spanish and Chemistry. This evening went to Mcrose and saw H. S. who is to return to U.S. on Saturday next. There was a notice in yesterday's Journal of the Harvard Temp. Society. -

— Cambridge —

1859.  
Oct. 20 Thursday :- Very pleasant, but very cold.  
Have recited in Greek and Latin and handed in a Theme on "The Ancient Jews' idea of National Glory". Got 60 on a scale of 95 for my theme on "What are we to understand by the authority of National and Present Use in Language"; the highest mark but one given in my division, that was 82 to M. Daniels. Our Temperance Society of which the officers are W. P. Garrison, President, Th. H. Woods Vice President & Albert Nelson Secretary met this evening and adopted the Constitution as amended by the Faculty, who wished to restrict the literary exercises to the members of the Society, "possibly to prevent the contingency of having Wendell Phillips deliver a lecture on Temperance, as his letter to James Walker and Judge Shaw was probably not much relished by either gentlemen. There are sub-committees of three and four from each class whose business it is to drum up new members. There are now about 50 members.

1859

Oct. 21 Friday: - Pleasant, but disagreeably cold. Have recited in Astronomy, German Spanish and Latin. Went to the Gymnasium this evening. Nothing worthy of notice. The Isabella and the Columbus in which I am interested have arrived at Fayal the first clean the second with 70 lbs. sp.

Oct. 22 Saturday: - Pleasant and cool. Recited in Modern Greek. Rowed in the Gymnasium. This afternoon went into the city and saw H.P. off in the cars. Mr. Pope was there going to N.B. Mr. Caldwell was there. This evening had a visit from Agden Codman. Took supper at Clara's.

Oct. 23 Sunday: - Very pleasant indeed. Listened to a sermon this forenoon from Dr. Walker. He said that the suffering of Christ were for the purification of his character, and not to render God placable towards sinners, because that would imply that he had been before implacable. All justice could be satisfied with sincere repentance, except vindictive justice. Went to Chapel in the afternoon and to walk after chapel.

Oct. 24 Monday: Very pleasant. Have recited in Astronomy, German, Spanish and Chemistry. The Harvard Magazine for October came out to-day. I have a piece in it entitled "On the Wave" an account of my yacht voyage during the summer. Directed about twenty copies to my friends.

Oct. 25 Tuesday: Very pleasant. Recited in Greek and Latin. Nothing worthy of notice.

Oct. 26 Wednesday: - Very pleasant and very cold this morning. Thermometer  $20^{\circ}$ . Recited in Astronomy, German, Spanish and Chemistry. Recd. letters from my sisters and from H.P. There was a meeting of our Temperance Society this evening. The boards were out to-day for the first time.

Oct. 27 Thursday: - Very pleasant though cold. Had recit this morning in Greek. Recited in Latin. There was a meeting of the Medic. Faculty in the rooms below ours as I judge from the noise. Two Freshmen appear to have been under treatment. Letter from Sidney.

1859  
Oct 23

Friday: - Very pleasant. Slept in the morning  
Spent some time in the Hall. Had a letter from  
Germany. Nothing worthy of notice.

Oct. 24

Saturday: Very pleasant. Slept in the morning  
in the Hall. Spent most of the day  
in reading and writing to Mr. Hyl. Little  
of the week. Have been reading in German  
Library in the Hall. Very good. Had a letter

Oct. 26

Sunday: - Very pleasant, but with a  
snowy feeling in the air. Dr. Knight spoke  
at the morning. He defined Repetition,  
Repetition, Repetition and Communion.  
Had a very satisfactory session. Address in  
to the list between scholars and master a letter  
to Mr. Frank Hyl called on me this evening.  
Wrote to Elmer. His request to do that  
Dr. Walker was sent in his resignation to take  
effect at the end of the term. Prof. Felton  
will probably be the next President. Ballance  
went home yesterday, as usual. As usual, all  
with water on the floor one has not returned.

1859

Oct. 31

Monday: Very pleasant. - Recited in Astronomy, German, Spanish and Chemistry. Nothing really of note. Prof. Childs has returned from Europe where he has travelling for a year.

Nov. 1

Tuesday: Very pleasant. Recited in Greek and Latin. Mr. Eliot, in Mathematical lecture, has some remarks about my eye glasses.

2

Wednesday: Very pleasant. Recited in Astronomy, German, Spanish and Chemistry. Received letter from home in which Mr. Foster has bought the place of W. H. Safford, and has not left. I am tired of moving up there.

3

Thursday: Very pleasant: Recited in Greek and Latin. Mrs. Lake sick this afternoon and took some medicine. No other news.

4

Friday: - Very pleasant: Recited in Astronomy, German, Spanish and Latin & recited in Latin Exercise. An evening of some indisposition - Received letter from home and from B. Hall's. He is just returned from a month -

5 Saturday: Very pleasant. An Irish man  
Capt. Keble in Mass. just. He has  
just come to Roxbury with his family to visit the  
Seminary very comfortable. There are 50  
50 members in the Church of the Baptist.

6 Sunday: Very pleasant. Have been to church.  
Dr. Amblyte preached in the presence of  
Christ a very good sermon. He is still  
is quite unwell and confined to his room.

7 Monday: Very pleasant. Have visited in  
the morning. German Spanish and Chinese. Dr.  
Almy is still confined to his room. Prof. Lovings  
has been present with - some his.

8 Tuesday: Very pleasant. Have visited in  
Greek and Latin. Almy is very much worse.

9 Wednesday: Very pleasant. Have visited in  
Astronomy, German Spanish and Chemistry.  
Almy is still very. Emerson of my class,  
being alone his church having received an  
injury in the Gymnasium comes up here  
to officiate as Chem.
